

AkyPak® Advanced 1200x1000

Lid Nesting

The lid is nesting snugly inside the pallet base optimizing height of folded set

Foldable Container with Lid Nesting feature

The **most compact** of our container sets when folded, due to the lid nesting snugly inside the base, it allows for the safe stacking of up to 11 containers when empty, saving you warehouse floor space and enabling **highly efficient returns**.

This large and sturdy container is ideal to store and transport bulk items and large, non-standard sized or oddly shaped goods that cannot be easily and securely packaged & palletized for logistics operations.

As other containers in the AkyPak® Advanced series, the Advanced 1200x1000 is lightweight, puncture-resistant, durable, easy to handle, stackable, compatible with AGVs and traditional forklifts, and it is returned in one set.

Good Weight to Strength Ratio

Shock Resistant

High Lifespan
(up to 10 years)

Stackable & Foldable

Water Protective

100% Recyclable

Technical Specifications

External Dimensions (mm)	1212x1012x995 ¹
Internal Dimensions (mm)	1135x935x810
Weight of the Sleeve (kg)	11,5kg
Weight of Pallet (kg)	10kg
Weight of the Lid (kg)	6kg
Box Volume (L)	860 Litres
Material	HDPE / PP
Sleeve Quality	3000g/m ²

¹Other heights available on request.

Sustainability at the core

Designed and manufactured according to Circular Economy principles our extensive range of AkyPak Containers are a key element to reduce dependency on single-use packaging materials and to curb CO₂ emissions from supply chains. They are fully recyclable at the end of their useful life, producing zero waste.
